

# Why is My TV Turning on at Midnight

By Amie Cheney

5th Grade

My TV is turning on by it's self. It is really scary. I shut it of at 8:00 and go to bed, but at 2:00 am it comes on. Worse thing is *Dora the Explorer* is what is playing. I told my mom about it and she said it was probably a dream, but it kept happening over and over.

Lauren and her mom try to find clues about her T.V. Lauren went into her room and found that her remote was moved. Then her mom came in and told her, "Your sister keeps getting up at 11:45." I wonder if she is the one turning it on. "It can't be her because it comes on at midnight," Lauren said.

The next day Lauren talked to her sister and she said that she didn't do it. So we went to bed that night and my dad got up and went in my room. I tried not to say anything and faked my sleep. Once he got out I thought to myself, "What if he is the one turning it on." The next day I told my mom and she said, "Let's talk to him." He said, "No, I haven't done anything like that before." After 2 days, I stayed up and saw my sister, Amanda, did it. I told my mom and Amanda got in big trouble. For now on, I lock my door at night.
