Mental Health Intervention Program

Available for Golden
Plains Elementary,
Middle, and High
School Students

A partnership between USD 316
and High Plains Mental Health

What is a School Liaison?

The role of a school liaison is to connect guardians, school, and High Plains Mental Health providers to students with behavioral issues, poor attendance, and academics.

Ask for help if:

- You struggle to appropriately control behaviors in school
- You are anxious, sad, or overwhelmed
- You struggle with class work
- You have difficulty with coming to school

MENTAL HEALTH MATTERS

This program is designed to access mental health services while getting rid of barriers for students and families in need of services.

The program allows for convenient times and locations (often in school) to best serve families. All services are provided by a licensed therapist.

Purpose of the program:

- Increase stability at home
- Improve behavior
- Increase school attendance
- Eliminate the stigma of mental health
- Increase convenience of therapy services
- Improve grades
- And so much more.
